

Abstract

Make sure your word count does not exceed 250 words.

Method

Results

Provide your data here. Tables and Figures work well for presenting results.

Introduction

Give a brief literature review here. Remember, citations that are presented in this poster will need to be referenced. Try to develop the reasoning for why your study was accomplished.

Results

Provide your data here. Tables and Figures work well for presenting results.

Aims, Hypotheses, or main questions

List your aims, hypotheses or main questions here. What was the necessity to do this research?

Conclusions

List the main findings of your research. Discuss the limitations of your research, give implications, and ideas for further study.

References

Make sure to properly cite the main references you mentioned within introduction.

Acknowledgments

If you have any acknowledgments, provide them here.
